

"ERICH"

1. MUNI 6468, IN 18848, 7 November 1961

When arrested UJDROWSY tried to remove something from his wallet which was grabbed by the Police. Item was a copy, apparently from microfilm, of RIS EEIs presumably received by UJDROWSY from the RIS at the Vienna meeting on 10 September. Highlights of EEIs included....one half page of cryptic details re commo and meeting arrangements. Contents of the info makes it apparent that UJDROWSY is handling another source, code name "ERICH", who probably is in UPHILL.
